MANGANNEKEN PIS 2025 (RIICHI, MERS 3.5)

Observer: Anthony EA

Date: November 15th-16th 2025

Place: Brussel, Belgium

Website or other source(s) of information: All information on the website of Brussels Mahjong Club: https://brusselsmahjongclub.home.blog/2025/05/23/manganneken-pis-2025/

Participants: 60 Players, representing 10 Countries:

Belgium : 30 players
France : 10 players
Germany : 6 players
United Kingdom : 4 players
Spain : 2 players
Austria : 2 players
Switzerland : 2 players
Netherlands : 2 players
Sweden : 1 players
Philippes : 1 players

Playing schedule: 2 days, 9 Rounds (5+4) Hanchan of 75 minutes.

Location: The Tournament took place in the Belgique-Chine: Association in one of the Association's rooms, The space was comfortable enough to host all players.

Equipment: We played with Standard Riichi Mahjong sets and table.

Refereeing:

- PHANPANICH Piti (Head Referee)
- PELGRIMS Raphael (Player Referee)

Complaints:

Several points were raised by a few players:

- No bottles water available, players must go to the great hall and get a cup to drink water, so according to them, this is inconvenient, and at one point, there are no more cups available, and the players have to wash the used cups themselves.
- The coffee is still not available, and some players find that the taste of the coffee is not good at all.
- At one point, there was noise during the game, and a player complained that the referee wasn't saying anything, she felt it wasn't right.
- On the last hanchan, a player at his table made coumbo, they asked for a referee, but for a minute, no one came, it was too long, because the referee had gone to get the boxes to put away the mahjong games, so there was no referee in the room during this time, the players were stuck waiting, while the hanchan was decisive for the podium for him and for Quinn who finished first in the ranking, there was little time left on the clock, (10 minutes), and everything could have changed if they had been able to play one more game without the time lost waiting for the referee for the coumbo.

Information / communication during the tournament:

Visible clock projected on a computer; from every table the competitor played on there were no issues with checking the clock whenever they wanted. A staff member would announce the beginning of a session and click a ''Start Timer" button. A beep would play out when the session was over. Rankings were updated promptly after each hanchan and were conveniently available on the tournament website.

Sessions: Excellent Playing Atmosphere, FFF (Fair-play, Friendly and Fun). All players were supportive, polite, and engaged, making for enjoyable Games. The schedules were strictly adhered to for each game session.

Catering: Lunch in the same place, players had to go to a room downstairs, pick cutlery and wait for a plate dans soup, Afterward, the players would be redirected upstairs and could sit in any of the available rooms of the association to have lunch and a good selection of snacks, refreshments available, soda, cake, etc…

Prizes: Trophies for Individual ranking (1st, 2nd and 3rd), and a lot of specials Prize (for Yakuman Prize, Best Hanchan each.(A box of Chocolate)

Conclusion:

Very Nice Tournament in Brussels, Each player receives a Japanese Origami as a welcome Gift, the game course is determined by a random draw chosen by the players themselves,

The Staff members were very Friendly, always try to help, the atmosphere was very good, and most participants seemed helpful and well spirited.
A good communication, particularly the score that the players could check online ranking system in Times.

The minor issues reported, such as noise control, for the water… are small operational points that can be easily addressed for the future events of further enhance the players experience,

Overall, a High Quality and Enjoyable Tournament, I will participate every years !
